KARTIK PAWAR

CLOUD & DEVOPS ENGINEER

kartikpawar1290@gmail.com +91 7887832809 Pune Portfolio GitHub LinkedIn

Summary

Cloud & DevOps Engineer with hands-on experience in building **secure, scalable, and automated cloud infrastructure** on AWS. Strong expertise in **CI/CD pipeline design, containerization, DevSecOps integration, and infrastructure as code**. Proven ability to reduce deployment failures, improve release speed, and strengthen cloud security using tools like **Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, Trivy, and SonarQube**. Passionate about automation, reliability, and cloud security best practices.

Education

Savitribai Phule Pune University Bachelor of Engineering (IT) • 8.90 CGPA
Dhole Patil College of Engineering, Pune 2022 – Present

Skills

Cloud Platforms
AWS, Azure

Programming
Java, HTML, CSS, JS, ReactJS, SQL

DevOps & CI/CD
Docker, K8s, Jenkins, GitHub Actions, Terraform, Ansible, Linux, Git, GitHub

Monitoring & Security
Prometheus, Grafana, Trivy, Sonarqube, OWASP ZAP

Experience

Neural Arc Inc Pune
Cloud DevOps Intern Nov 2025 - Feb 2026

- **Systems Architecture:** Engineered Terraform-based IaC for multi-region AWS provisioning and Docker containerization; **extinguished** manual configuration drift and accelerated environment setup time by 80% across staging and production.
- **DevOps & CI/CD:** Optimized GitHub Actions workflows and AWS Amplify deployments to streamline front-end and back-end delivery; **trimmed** manual effort by 60% while **curbing** rollback incidents by 25% through **programmatic** testing.
- **Cloud Operations:** Orchestrated scalable AWS ECS (Fargate) and EC2 workloads to support high-traffic applications; increased system availability by 30% and **minimized** production release issues by 35% via standardized deployment patterns.
- **Security & Compliance:** Integrated Trivy vulnerability scanning and AWS Secrets Manager directly into CI/CD pipelines; achieved 100% compliance and a 50% **cut** in misconfiguration risks by enforcing strict IAM policies.
- **Monitoring & Observability:** Leveraged Amazon CloudWatch for granular logs, metrics, and real-time alerting; **shaved** mean time to resolution (MTTR) for critical incidents by 30% and improved overall system transparency for stakeholders.
